> Objet : RE: L'EREMITA DI GALLURA (FEI Reg 103KT75), Rider MIERMONT, Sébastien (FEI Reg 10021684, FRA) – CEI3\*160km, Compiègne (FRA), 23 May 2014

Apologies for the delay in coming back to you.

Despite the very best efforts of the on-site veterinary team, sadly the horse l'Eremita di Galura died at the event in Compiègne.

The results of the post mortem, which is required under FEI Veterinary Regulations, and the final results of testing on samples taken at the venue, first had to be informed to the owners of the horse and other official parties present at the event. The detailed reports of equine post mortems are confidential and are disclosed only to the owner or owners of a horse.

Samples taken from the horse at the event, as required under FEI Veterinary Regulations, were sent to an FEI approved laboratory and have been tested for prohibited substances in line with the FEI Veterinary Regulations. At the conclusion of testing, the Laboratory has reported that no prohibited substances were found.

The extensive post mortem examination, which also included microscopic analysis, by the investigating pathology experts at an independent and internationally recognised Pathology facility of the French Ministry of Agriculture, found no conclusive evidence of the possible cause of death.

The required investigations have now been completed, but unfortunately despite extensive efforts have not revealed the cause of this very sad incident.

Yours sincerely,
